BMA Eco Club Newsletter 2

At our weekly eco club, we are striving to make our school an environmentally friendly place where students can enjoy their learning and experience the joys of our eco systems firsthand!

Building our Mini Orchard

After a long process of planning and preparing, we have constructed our mini orchard! To start with, we moved wheelbarrows of compost and planters to our nature area, where we then started to plant the trees. We then worked to secure them with tubing and wooden stakes to secure the trees and to ensure that they grow healthily. These trees should grow relatively quickly and should (soon enough) be a hub of biodiversity like our bug hotel (which is now thriving) that was constructed earlier in the year!
