BMA Eco Club Newsletter 8

At our weekly eco club, we are striving to make our school an environmentally friendly place where students can enjoy their learning and experience the joys of our eco systems firsthand!

Our MET Eco Code

Make small Changes

Every living thing matters

Take time to tackle litter!

In eco club this week, we worked on picking (and eating) strawberries grown in our school allotment area, and we also have been in the process of weeding EVEN MORE thistles from the flowerbeds, and we also watered all of the plants thoroughly to ensure that the plants did not wilt in the very warm weather. As well as this, some of these strawberries will be made into homemade jam! Next week is the first ever eco day, so we will be working hard in the next week to ensure it is an event that can be held annually!
