What is the Cabot Learning Federation Big Summer of Fun?

The project is supported by the Government's significant additional funding to support pupil transition from Year 6 to year 7 – and across the Cabot Learning Federation, our schools are aiming to support as many children, across all age groups, as we can. Department for Education (DfE) research estimates that the impact of the pandemic on learning has been significant. The DfE has also stated that children and young people's mental health suffered during lockdown. At the Cabot Learning Federation, our strong commitment to our HEART values means that we are both determined and well placed to support children in communities who have been the most adversely affected by the past year by providing opportunities for them to re-engage, play and experience a joy-filled programme of activities this summer. The Big Summer of Fun at the Cabot Learning Federation will prepare all of our young people for success by focusing on five key areas:

- Providing a broader benefit for families and communities
- Supporting our most vulnerable children and young people
- Continuing an open conversation about pupil mental health and wellbeing
- Improving education engagement
- Helping Year 6 pupils to transition with social skills, learning and making friends
